The Bangor Journal's Doctrine of Popular Sovereignty.

Some time ago, the Bangor Journal announced what it considered to be the Straight Whig idea of popular sovereignty, and repeated it recently with something of a flourish, while replying to an article in the Kennebec Journal. It is laid down as follows:

"The great principle of Popular Sovereignty we believe in and avow, but we do not regard this great and first principle, the principle of self-government, as conflicting with the jurisdiction which Congress from *necessity*, extends over the territories. That the people in their sovereign capacity, have the right in becoming States to make their own constitution and laws, no good democrat or whig will deny. It was this right which the people of Maine exercised in the adoption of its constitution. It is a common right of the people of the entire Union, and subject to no geographical limits or distinction. We are proud in the belief that the whigs of Maine believe in this great doctrine, and hence it is needless to enumerate particular acts."

This is as far as the Journal goes in explanation of its views, and it is quite careful to avoid the *material* point just now in issue,—viz., whether Congress has a *right* to prohibit slaveholding in the territories. We are curious to have the Journal's opinion upon precisely this point,—caring very little what it may think upon the rights of *States* to form their own institutions—about which there is very little difference of opinion. The Journal believes in popular sovereignty, and does not regard the *necessary* jurisdiction of Congress in the Territories, as conflicting with that sovereignty. The inference is a fair one, that the Journal does *not* concede the right to Congress to prohibit slavery in the Territories, because it would confine its action to *necessary* jurisdiction. Perhaps the editor will be a little more explicit upon this point.

"That the people in their sovereign capacity have the right in becoming States, to make their own constitution and laws, no good democrat or whig will deny," says the Journal.

We presume not. And yet there may rightfully be a limit to the kind and quality of the "institutions" which Congress and the people of the other States may be obliged *to admit* into and legalize in the confederacy. Does the Journal agree to this—yea or nay? Would the people of this Union, under the Journal's "popular sovereignty" doctrine, be obliged to admit a Chinese State that might be formed on the Pacific, with idolatry and infanticide legalized as "institutions?" or are they under obligations to admit a Mormon State, with polygamy woven into its religion and its laws? We would like to have an explicit answer to this question—never having been able yet to obtain one.

Robbery of a State Arsenal. A correspondent of the New York Commercial Advertiser, writing from Harrisburg, states that Anthony Diane, keeper of the State Arsenal, had been arrested for taking six boxes of arms—guns, rifles, pistols, &c.—out of the state without legal authority. He was committed to jail in default of bail for $2500. Mayor Conrad of Philadelphia, by means of the police of New York, has discovered the boxes at a store in Broadway, the proprietor of which said they had been sold to him by Aaron Coburn of Philadelphia, a member elect of the Legislature. Coburn said that he had purchased them from Diane, as condemned arms. It has been rumored that the arms were intended for the Nicaraguan fillibusterers, but such report is not now credited.

Drowned.—We learn that a young man, named Charles Robinson, of Carmel, aged about 20, was drowned in Etna Pond, on Friday last, 21st inst. He skated into a hole in the ice,—and when his body was recovered, a short time afterwards, it was found that he had received a bad cut on his forehead from striking against the ice, and it is presumed he was stunned by the blow.

One of the sailors of the new ship James Bay, at Philadelphia, has been discovered to be a female. She stated that she was married at fifteen, belonged to Lowell, Mass., and had a child about two years old, she now being seventeen. She had been to sea before, and is quite active in climbing the rigging. The captain designs to send her home.

The inventory and appraisement of the estate of the late Captain Folsom, of San Francisco, have been completed, and show assets to the amount of $2,006,000. After paying his debts and administration expenses, there will be left to divide among his devisees about $1,500,000.

Extending the Area of Slavery. The citizens of Trimble county, Ky., have decided at a public meeting, that the jurisdiction of Kentucky extends to low water on the Northern shore of the Ohio River. They say it would otherwise be unsafe for the people of the south to carry their slaves on the Ohio River.

Christmas Assembly.—A public Assembly will be held this evening at Norombega Hall, under the direction of Wasgatt's Dirigo Quadrille Band. It will be seen by the advertisement that the terms of admission are very reasonable.

Singular Cause of Death.—We learn from the Woonsocket Patriot that about three months since, Mr. Eleaker Brown, of Uxbridge, stuck a small blackberry thorn in his finger, inflicting a slight wound which grew worse, and finally mortified, causing his death on Saturday last. He was 82 years of age.

The Pennsylvanian reports that a broker in that city, taking courage from the success of certain individuals in these latter days, has "absquatulated" with funds to the amount of about $90,000, which has been placed in his hands for negotiation.

Not Murdered [illegible].—The report which we published of the death of Mr. John W. Randall, the rabid man, which we gave upon the authority of a person who had taken particular interest in his case, we are glad to learn is not correct. He has been near unto death, but is likely to recover.—*Newburyport Herald.*

Burglary.—The amount of watches and jewelry stolen from the store of Lyons & Cohen, in New York, was "nearly six thousand dollars," and not *sixty* thousand, as reported.

Pray for their Safe [illegible].—Bro. Spear of Richmond, as it will be seen, has subscribed $600. Bro. S. will give to our Seminary one sixteenth of the earnings of the ship Horatio, for the present and next voyage. We shall hope to realize, at least, $700 from the two voyages. Brethren pray for the success of the ship Horatio.—*Maine State Seminary Advocate.*

Hard for the Dog.—The Pittsfield Eagle says great regard for the comfort of his fellow passengers, but not much for his dog, was manifested by a Frenchman who took the cars at Pittsfield, last week, for New York. The animal was a valuable one and he did not like to leave him, nor did he like to take him in the cars, to the discomfort of the passengers; so, procuring a stout cord, he attached one end to the dog's collar and the other end to the back of the rear car. The train went into Bridgeport with a brass collar and a dog's ear attached.

Secure your Postage Stamps.—We would call the attention of the public to the fact that letters must be pre-paid by stamp from and after the first day of January next.

Interesting from the Indian Country.—The St. Louis Democrat has interesting and important news from Gen. Harney's command.—Gen. Harney, who is now at Fort Pierre, previous to his departure for Fort Laramie, made a demand upon the Sioux of the Platte for the murderers of the mail party. He stated to the Indians that he had already visited punishment upon them for the murder of Lieut. Grattan and his command, but that, as preliminary to any conditions of peace, he must have delivered to him those Indians who had committed the murder above alluded to, as also the murderers of Gibson. The account continues as follows:

"After Gen. Harney's departure from Fort Laramie, the Indians, consisting chiefly of Sioux, came into the neighborhood of the Fort, and asked leave to encamp there. This was granted them, and thereupon three of the murderers of the mail party came to the Fort, dressed in full war costume, painted for death, singing, and gave themselves up, or to use their own expressive language, "threw their lives away for the good of the tribe." They were Red Leaf and Long Chin, the two brothers of the Bear, or Mattoiowan, who was killed in the affair with Lieut. Grattan; Red Spotted Tail, a noted brave. At the same time, also, Red Plume and Spotted Elk came in, and voluntarily offered themselves as hostages for the peace of the tribe. They were all accompanied by their squaws, and were at once placed under guard. Afterwards they were all brought down to Fort Leavenworth under the charge of Brevet-Major Johnson of the Sixth Infantry and an escort of twenty men."

The man who murdered Gibson is expected to be given up. The Sioux of the South Platte are disposed to treat for peace, as evinced by their action detailed above, but the Sioux of the North Missouri are troublesome.

Mr. Banks. The Providence Journal says "the following definition of the position of Mr. Banks is from a gentleman at Washington who has had an opportunity to become acquainted with him and with the contest now waging for the Speakership."

"Mr. Banks is the representative of the great Northern sentiment in opposition to the encroachments of the Federal government, in its issue now made for the extension of slavery, sustaining the repeal of the Missouri compromise, and nationalizing slavery as a Federal institution. Mr. Banks is opposed to all this in toto. On questions affecting the tariff, he occupies the ground of free trade as a general thing, upon the introduction of raw materials, and full protection to American labor, or of those articles which have had American labor added to them. This I understand by several conversations I have had with him upon these subjects."

RECAPITULATION.

Whole number of ballots,	13,835
For Ambrose C. Flint,	5,795

Mr. Flint, the present worthy and competent Treasurer, is declared elected.

The recapitulation of the scattering ballots is as follows:

Samuel Farne[illegible]	167
John Doe,	47

The returns for Benjamin Sweet were from the towns of Charleston, Etna, Maxfield, Orono, Plymouth and No. 7, R. 3.—Those for Hinckley and Varney were from Carroll and Newport.

From Cape Haytien.—We have news from Cape Haytien to the 3d inst. Business was very dull and [illegible] precarious on account of the threatened war with the Dominicans, which had become inevitable. Every male inhabitant capable of bearing arms, without regard to rank or station, was being drilled for service, and several companies had already left for the seat of war. The Emperor was at the head of his army, and was sanguine of success. His troops manifested the utmost loyalty. It was rumored that a revolt or insurrection was likely to take place among the Dominicans, and at a certain signal the Haytiens were to rush in, when they would be joined by the Dominican revolutionists.

Late news from Port of Spain, Trinidad, represent the island as perfectly healthy.

Monetary Affairs.—*Boston, Dec.* 23. There was more money, but paper of prime grade in the street to-day was at 10 per cent., and the easier inclination of the market was more decided than during any previous day of the week.—Negotiations are reported as low as 9 per cent., but we apprehend that transactions have been quite limited at this figure as yet. The Banks now extend so much greater facilities, that borrowers on acceptable notes are rapidly withdrawing from outside discount. Easier rates are likely to rule next week, unless something occurs to check the increase of Bank loans.

Death of a Miser.—The Sandusky Vindicator announces the death of a German named John Herrymann, of that place, leaving a fortune estimated at from twenty to fifty thousand. He was one of the lowest class of misers, equal to the most loathsome ever painted by Dickens. For the last sixteen years, he has constantly worn the same blue linsey-woolsey wamus and pantaloons, carefully run or darned all over with strong thread so as to prevent the possibility of wearing out except on some important occasions, such as land sales or something of that nature, when they gave place to a suit of black velvet that [illegible] often boasted had served him faithfully for forty years. He contracted the disease of which he died by walking over the bad roads during the most inclement weather of the season, all the way to Putnam and Henry counties to pay his taxes on the land he owned there, without a sufficient clothing to protect him from the cold. In fact, we are informed that he scarcely ever wore a shirt or under garment, and that the one he had on when he died had not been changed for over three months. Although rich, he has been known to chaffer with the [illegible] over the price of a horse-shoe which he [illegible] up in the street. So far as is known, he had no heirs. He always resented any inquiry in regard to the place of his birth, relatives or his history.

Business here is about dull. Sawing closed for the season between [illegible] and the wharves and by-places about town are piled full of lumber, prices remaining at [illegible] as not to induce shipment. Our river is comparatively free from ice, but the arrivals of vessels are few and far between, owing to the dullness of the lumber market. Only a small amount of lumbering will be done on this river the coming winter; not near so much as last season.

The high prices of provisions, and lack of labor, is beginning to be seriously felt by those of our people who depend upon their labor for their daily bread.—*Machias Union.*

A Frenchman, being hard up for a dinner stole a pig. He was caught in the act, taken before a magistrate, and called upon for his defence, when he thus delivered himself: "Oh, mon Dieu! LEVEE OF THE A. A. B. H. S.

TWENTIETH ANNIVERSARY.

It is now twenty years since the Bangor High School, in the midst of opposition and ridicule, was founded, and during that time, sustained by the efforts and sacrifices of a generous community, it has increased in value and importance until it has become one of the most distinguished institutions of the kind in the country. Its five hundred surviving graduates, to be found in every state of the Union, and engaged in all the active pursuits of life, look back with unalloyed pleasure upon the days when they were under its influence, and regard its prosperity and usefulness with an interest seldom felt in institutions of this kind. The celebration of its anniversary has afforded an opportunity for the expression of this feeling, and year after year, although the increasing cares of life were diminishing their interest in the past, the graduates at home have taken part in the exercises of the occasion, and those abroad have sent tokens of their remembrance of the old school and its worthy teacher.

The celebration of the XXth Anniversary of the School, took place on the evening of the 21st inst, at Norombega Hall. Between four and five hundred, composed principally of the younger portion of the community and representing the beauty and fashion of the town, were present. We have seldom enjoyed a more brilliant spectacle than that which presented itself in the grand promenade, previous to the commencement of the festivities:

> "Music was quivering in the air,
> Youth and beauty and joy were there,
> Jewels that flashed in the gazer's sight,
> Were yet with their wearers' eyes less bright."

The assemblage of elegant and intelligent women exceeded anything that we have before had in the city, and a distinguished gentleman from abroad, whose experience in such matters has been extensive, and whose taste is not to be doubted, pronounced it the finest array of beauty he had ever beheld. The compliment was well deserved.

Several gentlemen among whom were Gov. Kent, Mayor Hayward, Rev. Messrs Allen, Caldwell and Battles and Messrs Worcester, Sayward, Sanborn, John G. Saxe Esq., and others were present during the evening, as guests of the Alumni.

At 8 o'clock, President R. S. Morison called the Associates to order and offered some appropriate remarks, touching the character of the occasion and the object of the Association, and called for the reading of the

SECRETARY'S REPORT.

George H. Starrett submitted an interesting and well written report, in which some particulars were given of the formation of the Association, and of the celebration of previous anniversaries. The whole number who had enjoyed the benefits of the school for a longer or shorter period, is about 600. The number now resident in Bangor, exclusive of those now attending school, is about 150. The Alumni are represented in almost every State and Territory of the Union, nearly as follows:—In New England 250; Middle States 34; Southern 16, Western 26; California and Oregon 23. They are also represented in the Sandwich Islands, in South America and Australia and the British Provinces. They are also represented in almost all the different professions and trades.

SPEECH OF C. P. ROBERTS, ESQ.

C. P. Roberts, being called upon, after some remarks to the Alumni suggested by the occasion, contrasting the delights and fancies of exuberant boyhood, with the more sober and active duties of mature life, which had so speedily in the flight of time devolved upon them, and in which, with educated and enlarged faculties, a higher pleasure was to be found (which remarks for want of space we omit publishing at length) observed that the Alumni took pleasure in a grateful estimate of the worth of the privileges of the High School, suggested and inaugurated, among others, by the wise and liberal mind of one, years since gone to the mansions of the just, (Wm. Abbott) and particularly of the character and services of one for so many years its teacher, turning to whom, he made the following address:—

Yes, respected teacher, counsellor and friend! We your pupils throng here to greet you and to thank you for the good you did us when we were incapable of its adequate appreciation, and to add to the respect and love which your kindness secured from our youth, the fuller confirmation and larger and more intelligent gratitude of riper and wiser years. For the fidelity, the patience, and the affection that went hand in hand with the discharge of your duty to us, we thank you! For the interest in our welfare, that stopped not with the boundaries of school-days, but which, with tender solicitude, has followed after us, and remains with us, we thank you! For the example of an upright life and conversation, an open frankness and honesty of bearing that was daily set for our copy, we thank you!

Nor to thanks alone are we restricted in the response of our gratitude. When in an evil hour and under an influence, which we trust will prove an episode rather than a permanent chapter in the history of our city, the toil of twenty years was to be rewarded by thanklessly casting away the toiler, and the giving of a stone and a serpent, instead of the natural gifts of justice, in the course of that wise Providence which regulates and compensates in human affairs, the bread which had been cast upon the waters was found returning after many days and from a soil in which you had planted with a liberal hand, it has been yours to reap of defence and succor—abundantly merited, affectionately rendered, and honorably received.

May the future, to you, be so full of the reflections of duties well performed, and the evidences of their appreciation, that as your life is rounded to its completeness, the trace of no scar shall be discovered upon its fair proportions.

RESPONSE OF DAVID WORCESTER.

David Worcester replied at considerable length, referring to the origin of the school, in which Messrs. Hon. Edward Kent, William Abbott and others were prominent, to his employment as its teacher and to the hearty co-operation which he received from them and others during the earlier years of the school. He also alluded to the injustice which he considered had been more recently done him, the particulars of which are so fresh in the minds of all, and with an earnest eloquence that strongly touched the hearts of all who heard it, "took the opportunity, the first which had occurred, to thank those noble friends—his old pupils and others—who in the hour of his need came so generously to his assistance. It was entirely unsolicited, and like the wrong that was done him, unexpected; and while he hoped that the occasion might never again occur to need their help, he trusted he never should be wanting in a grateful recognition of kindness he could never repay."

REV. MR. ALLEN'S REMARKS.

Mr. Allen, who was suddenly and unexpectedly called up by some introductory remarks of E. W. Flagg, Esq., spoke of his interest in the High School and especially in the good testimony as to its moral discipline and influence given last spring by some of the former pupils. In the lack of ancient institutions among us, said he, and those things which attract the eye and the imagination in the seats of learning in older lands, our rallying point of affection and interest must be in the character of the *men* who occupy our higher posts of education.

He would doubtless have said more to the same purport, illustrating it perhaps by examples of the sort alluded to, but for the rushing sound of steam and the crackling in the heating apparatus, as well as the rattling of unseen plates; upon which, acknowledging the impotence of wind to contend again 't steam, he sat down amidst much applause.

HON. EDWARD KENT'S REMARKS.

Hon. Edward Kent, who had been alluded to as among the first who interested themselves in the establishment of the High School, and who was a member of the School Committee at the time, in the course of his response to a call made upon him, referred briefly to the origin of the school, which might be said to have sprung from the idea of the necessity and importance of maintaining public schools of high grade, in which all classes might equally share—the poor as well as the rich—and thus serve to do away with those distinctions which are necessarily kept alive by private and exclusive schools. The spirit of our republican institutions require this practical equality, which can nowhere be so well begun as in early education. At the time of its establishment it was regarded as a novel experiment, and encountered serious opposition, but it was a project that commended itself to the middling interest, the mechanics, the people, and by them it was carried through and has more than answered the expectations of its early friends.

Mr. Kent then alluded to Mr. Worcester and the high character which he and his school had ever maintained, so far as his knowledge extended, and cited in further proof of it the character of the young men who had graduated under his instruction and example.

SPEECH OF MAYOR HAYWARD.

Mr. President and Gentlemen of the Association:

The day is not very far back—no doubt within the recollection of some who are present—when associations connected with the schoolroom, were anything but pleasant. To be sure, things there were done by rule, but it was by rule "with a vengeance," where the first thing which came to hand, was the ferule, and the presiding genius seemed to have no scripture so constantly impressed upon his mind, as that Proverb which prescribes the "rod for the fool's back." It might, perchance be, that those who were thus bound together by the sympathy of a common suffering, should associate themselves; but if so, the last man you would expect to see in their company, would be their old teacher. We have before us this evening, in the presence of the former Principal of the Bangor High School, and the interchange of friendly sentiment between him and his former pupils, abundant testimony that such was never the atmosphere of *his* schoolroom.

Reference has been made to the wisdom and good judgment of those who, in the early days of our municipality, gave direction to its public affairs,—those who first established the school whose twentieth anniversary we celebrate. From among those who were presented to act as its Principal, they had the singular good fortune to select one who had learned that *fear* and *force* were not the highest elements of power to control the youthful mind,—one who appealed to their nobler natures, and set before them the love of excellence and moral worth. We have learned at length that the most efficient means to control others is a really superior ability, and fitness for the place, occupied, united to a rigid self-control.

During the twenty years of the high school it appears that more than five hundred have received the benefit of its instruction, and have gone forth throughout New England, through the different States, and some to other lands, filling the various walks of life and carrying with them those high and noble purposes and aims they were here taught. Of those who were active in establishing this institution, some have passed away and time has silvered the locks of those who remain. Our municipal affairs have passed to other and younger hands. My own years would naturally bring me more in sympathy with the young and active men—the Alumni—whom I see before me and into whose hands is passing the weighty responsibility of giving character to our goodly city. May we be guided by that same wisdom possessed by those who have been before us—one result of which we behold to-night—and, as from year to year, the "Associate Alumni" shall assemble for special greeting, allow me to express the hope that they may long be enlivened by the presence of their respected teacher.

SPEECH OF J. S. SAYWARD, ESQ.

J. S. Sayward, Esq., being called upon by the President, said that the evening was too far spent for him to enter upon a speech. He knew very well that other exercises were in waiting, in which all could actively engage, and he had not the slightest disposition to occupy their time, or tax their patience. He would detain them but a moment, merely to say that, in his judgment, no man better deserved to be honored than the able, faithful, devoted and successful teacher, who had conscientiously given the best of his life to his profession. It was this sentiment which was the special animus of the present occasion.—In honoring their worthy teacher, David Worcester, the Associated Alumni of the Bangor Boys' High School best honored themselves. They thereby manifested that their hearts had been receptive of the high intellectual and moral influences of his teachings and his life, and which, in their maturer years, they had come to regard as the richest remains of the sunny period of youth.

The Alumni had nobly and with willing feet and open hands pressed to the rescue of their beloved teacher when he had been suddenly and wrongfully stricken down. It was an honorable acknowledgement and prompt payment of a debt of gratitude, on their part, which had touched his heart, and which had commended them to the citizens of Bangor, as among the most reliable friends of education. He rejoiced that the support thus nobly furnished in the hour of trial and of need would be continued with additional sanction of the public approval and municipal participation.

The following letters are among those received and read by the Corresponding Secretary, C. P. Roberts, with the exception of the first, which, by accident, being mislaid, was not read on the occasion.

LETTER OF REV. JOSHUA YOUNG.

BURLINGTON, Vermont, Dec. 17, 1855.

MY DEAR SIR:—How much, much pleasure it would give me to be present on the 21st.—But five hundred miles, and the whole Green Mountain Range, white with winter's snows, confront my desire.

I feel as though I could almost overleap them to sing "Auld Lang Syne" with you and brothers all whose names and faces are unforgotten, on the delightful occasion, and to enjoy once more the opportunity of greeting under such circumstances, the kind, good old master who guided our youthful and wayward feet up the rough hill of knowledge, so pleasantly and so well—through tangled thickets of Latin sentences and over twisted roots of Greek verbs, where we often *stuck* and as frequently stumbled. But there was always a gentle, patient and able hand to help us up and on.

When you grasp that hand on Friday eve., please think of me and contract your fingers to a double pressure.

To go "home," to meet old friends—childhood's playmates, companions of school days—and, standing on the spot where

> "Up springs, at every step, to claim a tear,
> Some little friendship formed and cherished there;
> And not the lightest leaf, but trembling teems
> With golden visions and romantic dreams,"

to wave the magic wand of memory and be a boy again—need I say that it is hard to forgo such a pleasure as that?

Offering the following sentiment—The Bangor High School,—with the coming year attaining its majority, it will not cease to love and respect him under whose fostering care it has grown to manly age, being an ornament to the city and a blessing to the world—I am, with affectionate remembrances to yourself and "Associates,"

Your friend, &c.

JOSHUA YOUNG.

LETTER OF GILBERT ATTWOOD, ESQ.

BOSTON, Dec. 18th, 1855.

DEAR SIR: Your invitation to be present at the 20th anniversary of the establishment of the Bangor High School, was duly received. It is with great regret that I am obliged, by other imperative engagements, to offer my excuses for absence from so pleasant a gathering of old friends.

Will you have the kindness to express to the Association my warmest wishes for the present and future welfare of the Alumni, and renew to them the assurance of my hearty interest in all that serves to keep alive the memory of the old days, and kindly remembrance of him to whom we all owe so much.

Trusting that I may have the pleasure of meeting you all at some future assembly,

I remain,
Yours very truly,
GILBERT ATTWOOD.

LETTER FROM HEMAN L. WHITE.

NEW YORK, Dec. 15th, 1855.

DEAR SIR:—Your circular addressed to me as one of the Alumni of the Bangor High School was duly received, and in reply I would say that I very much regret my inability to be present and join with you and others of my old schoolmates in testifying my respect for him who has for twenty years given instruction to the young men of Bangor. Your invitation has awakened many pleasant remembrances, and I have for a few days since its receipt been living my school boy days over again, and have almost "wished I were a boy again"; but the sight of a little trio of girls who call me father, reminds me that I am an old boy, and with no immediate prospect of being younger. Please give my kind regards to Mr. Worcester and the boys, and believe me,

Truly Yours,
H. L. WHITE.

From C. Whitman Boynton, Troy, New York:—

"It would afford me much pleasure to meet on such a felicitous occasion, my friends and former schoolmates; and, with them to bear testimony to our appreciation of the usefulness of our High School, and of the ability and faithfulness of its esteemed and efficient teacher."

From Rev. Thomas H. Rich, Bucksport Seminary:—

DEAR "ASSOCIATES:"—I cannot make it convenient to be with you on the evening of the Anniversary. I would like thus to show respect to the guide of my youth; and thus reconfirm the ties of early friendship.

The evening shall be remembered by me though I be not present in person.

LETTER OF HASTINGS STRICKLAND, ESQ.

BANGOR, December 21, 1855.

To the President of the A. A. B. H. School—

I regret that business engagements will not allow me to accept your kind invitation to be present at your celebration. I rejoice and feel proud of the high and manly course which the Alumni of the High School of this city are pursuing towards their ever to be respected teacher, David Worcester. It exhibits that manliness of character which was taught them in early days and which I trust will never be forgotten. The precepts and example taught them by their respected teacher are a legacy of more worth to them than all the *gold* in California, as it is that which will yield to them compound interest so long as they imitate and follow his example—and I hope similar celebrations will occur every year. I feel that I owe to his teachings a debt of gratitude I can never repay. No one but a father of graduates can appreciate the benefits received from his teachings and example. Permit me to offer the following sentiment:

David Worcester, Teacher of the Bangor High School—an honest man the noblest work of God.

Very truly your obt servant,
H. STRICKLAND.

Letters were also received from Messrs. Edwin Lee Brown and Edwin B. Jordan, and others, of Boston, regretting their absence, and full of the assurances of their respect for their old master.

At the conclusion of the speeches and other exercises, which had been interspersed by music, S. P. Dinsmore, Esq., moved the previous question, which in parliamentary usage cuts off further debate, in order to see what was behind the curtain, which obstructed the view of the tables under the eastern gallery, bountifully spread with an elegant and substantial collation, by Messrs. Bickford & Pendleton, which, although their first effort of the kind, showed most excellent taste, and would not do discredit to older caterers. The flowers which adorned the festal board were from the hand of Mrs. Farrar, Court street.

Upon the rising of the curtain, the company gathered near, and a blessing having been invoked by Rev. Mr. Allen, a more intimate acquaintance was made with the viands thus suddenly and temptingly introduced.

After the collation, dancing was commenced by those who indulge in that amusement and "night's candles had burnt out" and jocund day "stood tiptoe on the misty mountain top" ere the last notes of the excellent music of Wasgatt's Dirigo Band, had died away.

The celebration was one of the most gratifying to the association that has yet taken place, and much of the success of it was owing to the Committee of Arrangements, and particularly the Chairman, under whose direction it was got up. It will long form a pleasant episode in the remembrance of those who took part in it.

Ladies' Special Notice.

During the stormy times attending the "Gift Enterprise," at which envy cavilled so long and loud, the subscriber never pretended to offer his goods for less than their real value, although his neighbors were continually advertising so to do, but now, during the Holidays—for the next ten days, at least—I am going to sell goods in such quantities as shall astonish my neighbors, and shall cause the closest buyers of Fancy Dry Goods to say that they never "saw the like," and that "the half had not been told them."

The citizens of Bangor shall now—perhaps for the *first time*—have an example of a new and fresh first class stock (not refuse and shop worn) really *marked down* for ten days. All are invited to call, and by pricing my goods test the truth of my representations. For a partial enumeration of the articles comprised in my stock see large advertisement in this paper.

I have also just received a choice lot of Embroideries, selected from the last importations for this season, which I shall be happy to show our customers as "Holiday Gifts," among which are—French, Honiton, Malta, Swiss, Scotch, Cambric, Lace, Aplique Lace, and Book Collars—some very desirable Sets, in new patterns—fresh patterns Stamped Collars and Bands; Emb'd L. C. Hdkfs, something entirely new in style. Emb'd Sleeves, Embd Bands in French Cambric and Emb'd Mohair Caps, Coiffures, and Head Dresses. Also an assortment wide Black Velvet Ribbons, all silk—an assortment Misses Wool Ribbed Hose, all sizes.

at Burnham's

19 Main Street and 24 Strickland's Block

Likenesses made upon *Glass*, showing all the delicacy and smoothness which the glass surface presents. These Pictures are truly beautiful—Come and sit for one.

—ALSO—

Crystalotype Likenesses, (or Pictures on Paper.) These Pictures, which have been gaining in public favor for some years past in Boston and elsewhere, are now presented for the consideration of those who wish for a large number of Pictures at small price. They resemble Engravings, are not reversed, and may be painted in Oil or Water Colors. Small Daguerreotypes may be enlarged by this process to almost any size. This we consider a very valuable consideration, as many persons who have small Pictures of deceased friends would be glad to have them enlarged, so as to be hung in frames upon the wall.

The subscribers have recently secured the services of *T. R. Burnham*, who has been operating in the vicinity, and has collected a large number of specimens of persons in the following towns, viz.—Oldtown, Orono, Hampden, Frankfort, Frankfort Marsh, Bucksport, Prospect, Searsport and Belfast, which can be seen at the Main st room.

With the above named arrangement we feel better prepared than ever before to wait upon our friends, and we respectfully solicit a continuance of the patronage which has been so liberally bestowed for the past few years.

TO THE DAILY WHIG AND COURIER

Congressional News.

WASHINGTON, Dec. 24.

HOUSE.—Mr. Lester having received from time to time 2 votes for Speaker, stated distinctly that he had never been a candidate for the office, and never would be. He stated this lest it might be suspected that there might be something wrong in his position. He had as consistently and regularly voted for Mr. Banks as any other man in the House.

Mr. Stewart, in explaining the reason why he had been voting for Mr. Richardson, said that his, Richardson's, and Mr. Fuller's position had been explained distinctly and explicitly, but Mr. Banks' had not. He asked Mr. Banks whether he ever said in a speech in Maine, "Let the Union slide."

Mr. Banks replied, "In that speech I said there might be such a state of things in which he would consent." He had reference to future contingencies, such as the prostration of the gigantic power of the government to the support of a single institution—slavery. He was for the Union as it is, and would meet its enemies in the Union as [illegible]. He was for the Union as the guarantee of the rights of the States, and the main [illegible] the rights [illegible]. He would have the stop of our government. He would have the Union stand on the records of History in the language of Washington, crowned with immortality.

Mr. Smith of Va. "I am not satisfied with the answer of the gentleman. Did you say under circumstances, you would let the Union slide?"

Mr. Banks, "I have said all I desire to say."

Mr. Smith of Va. "I wish to be distinctly understood, that those who sustain Mr. Banks are voting for him with the knowledge that in a certain contingency he would let the Union slide."

Mr. Grow said, "I ask the gentleman, and every member who has been here for the last four years, whether such a declaration has not been repeated time after time, by some of those who are now voting for Richardson—namely, That they are willing to dissolve the Union, and let it slide, in a certain contingency. We stand here to support the compromises of the Constitution, as it is explained by the fathers of the Republic, and contemporaneous records for over sixty years. We say we are not willing to take any other construction, or to consent that slavery shall go wherever our flag floats."

Mr. Rust said, "He believed from the beginning that all debate was out of order, as the first business before the House, was the election of a Speaker."

The proposition pending when the House adjourned on Saturday, namely, "That no debate shall be in order till after the election of a Speaker," was tabled.

A resolution to elect a Speaker by plurality was rejected by fifteen majority. The House then voted with the following result—Banks 101, Richardson 73, Fuller 37, scattering 11.

Mr. Stewart submitted a proposition declaratory of the national principles on which the speaker of the House should stand.

Mr. Colfax stated if Mr. S. would accept as a substitute, a proposition opposing the annexation of Cuba, and appropriating by annexation that part of Oregon surrendered to Great Britain by Mr. Polk, he might then vote with that gentleman. Laughter.

Mr. Bocock raised a question of order, saying the law required that a speaker be elected and members sworn before the transaction of other business.

Mr. Boyce asked Mr. Banks, among other questions, "are you in favor of recognizing Hayti and receiving a black minister—do you favor the abrogation of the fugitive slave law and the abolition of slavery in the District of Columbia." Cries from the friends of Mr. Banks "call the roll." Confusion.

Mr. Banks replied to Mr. Boice, and said he distinctly recollected Mr. Richardson, being a candidate for Speaker, had declined giving answers to questions propounded. Laughter—Cries of Good Good—Call the roll.

Mr. Florence here made an ineffectual attempt to have the House adjourned until Thursday, for the purpose, as he said, that members might participate in the religious and social observances of Christmas. (Laughter.)

Mr. Brooks referring to the animadversions of Messrs. Banks and Giddings, said, in the reverse contingency he was willing to let the Union slide, if the gentlemen on the other side, who support Mr. Banks, have that fixed determination. He wanted his constituents to know it. He declared the issue made here, that it might be fairly met, if necessary.

Mr. Shorter, although voting for Mr. Richardson, was willing to unite on some other conservative candidate, who believes the Missouri Compromise line should not be restored, in order to effect an election.

The House then voted with the following result—Banks 101, Richardson 74, Fuller 31, Pennington 4, scattering 7. Necessary to a choice, 109.

Mr. Nichols offered a resolution that a Speaker be elected by a plurality vote. Tabled by a vote of 116 against 101.

Mr. Orr moved that when the House adjourn it be till Thursday.

Mr. Giddings, "We have no power to adjourn. If the motion was agreed, a majority may come here to-morrow, reverse the order, and elect a Speaker."

Mr. Orr—If a speaker were elected under such circumstances the majority would find Jordan a hard road to travel. Laughter.

Mr. Florence—and it would be a very pretty example for christian men to set the country. Merriment.

Mr. Orr's motion was negatived.

Adjourned till Wednesday.

Steamer Northern Light Detained by U. S. Officers.

NEW YORK, Dec. 24th.

Shortly after 2 o'clock to-day, the U. S. Marshal received a dispatch from Washington ordering the seizure and detention of the steamer Northern Light.

Officers were accordingly sent on board; but Mr. White, the counsel for the Transit Company, declared that the vessel should sail at her usual hour, 3 o'clock. Subsequently, however, he and the captain went to the U. S. District Attorney's office, to see what arrangements could be. The result of this interview is not known.

About 4 o'clock the Northern Light was got under way, but had not proceeded far before she was interrupted by a revenue cutter, which fired two guns across the bows of the steamer, and brought her too. Two other cutters, also proceeded to assist in stopping the Steamer.

There were apparently between 300 and 400 young men on board whose appearance indicated that they were Nicaraguan adventurers, and one of them confessed that they were such, and had been engaged by Col. French and others to go west.

The Northern Light left her dock with three [illegible] officers.

Later. The Northern Light has returned to the city. The revenue cutter fired blank cartridges first, to bring her to without effect; then sent a shot two or three rods ahead of her and the steamer stopped and was compelled to return.

Horrible Murder.

NEW HAVEN, 24th.

The body of Justus Mathews, a workman, was found dead this morning in the western suburbs of this city, with his throat cut and wrists tied. He was in the house of Rhode Wakeman and had been connected with a band of millerites, or spiritualists, or something of the kind. Seven of his brethren have been arrested on suspicion of having had a hand in the murder, and are now in prison.

Later. The murder of last night creates much excitement as the facts become known. The persons arrested have all been considered inoffensive. Jackson, the gray-haired porter at the depot, is among the prisoners. Mathews' neck was shockingly mangled. It is said that he consented to be sacrificed in order to hasten the millenium. The woman at whose house the deed was done is about 70. She represented herself as Jesus Christ and as having the power to raise the dead.

Remains of Sir John Franklin.

ST. PAULS, M. T. Dec. 22.

Mr. Stewart arrived from Red River last evening, on his way to Canada, bearing dispatches for Sir George Simpson, containing information of the discovery of the place where Sir John Franklin and his party perished. It was on the coast opposite Montreal Island. Their bones lie buried in the sand, within an extent of 12 miles. (This is the fifth winter since they perished, and the drifting sands of that barren region, being in lat. 68 degrees north, have drifted in successive layers on the bones of these noble and ill fated men.

Mr. Stewart describes the region as dreary in the extreme, not a blade of grass, nor a stick of timber met the eye. No game of any kind could be found.

He was informed by the Esquimaux, that they, the Esquimaux, reached the spot just in time to see the last man die of hunger, who was leaning against some object when discovered; he was too far gone to be saved.

Mr. Stewart has brought home the remains of a bow, having the name of Sir John Franklin on it, a hammer, kettle, part of a blue flag, and other articles belonging to the unfortunate vessel.

THE PROSPECTS FOR THE SPEAKERSHIP. *New York, Dec 23.* The Washington correspondent of the Herald telegraphed on Saturday evening as follows: "To-day's proceedings in the House are both indicative and significant. The plurality proposition was voted down by a combination of the Fuller men with the friends of the Administration. In every instance where a test vote was required, Mr. F.'s friends voted with the Administration; and I was informed this evening that should the alternative be presented, they will vote for a Southern man in preference to Mr. Banks.

Another correspondent says: "I am assured that it is the purpose of Mr. Fuller to withdraw on Monday from the contest for the Speakership, and that another candidate will be put forward by the National American party."

STEAMER BURNT—DEATH. *Washington, Dec. 23.* The steamer Seminole, running between Savannah and Jacksonville, was burnt to the water's edge at Jacksonville, on Thursday night. About 200 bales of cotton were also consumed.

Sanford, on the corner of Pierpont and Henry streets, Brooklyn, was nearly consumed by fire, and the whole of the costly furniture, pictures, &c., ruined by either fire or water. Loss heavy.

Holloway's Ointment and Pills will cure any disease of the skin, of the longest standing. William Frederick Auderson, of Yadkin, North Carolina, suffered for a long time from eruptions on the skin,—his face, arms and legs, were covered with little pustules and scaly of a scorbutic nature. For the cure of this unsightly and painful disfigurement he tried a variety of remedies which failed to benefit him. At last he tried Holloway's Ointment and Pills, which soon produced a favorable change, and by a few weeks perseverance with these remedies he was completely cured. This famous Ointment will cure ulcers and old wounds of twenty years standing.

PATENTS,
American and Foreign Office,

AGENCY FOR BUSINESS WITH U. S. PATENT OFFICE.

WASHINGTON

No. 76 State Street, opposite Kilby St,

BOSTON

IMPORTANT INFORMATION TO INVENTORS.—The subscriber (late Agent of the U S Patent Office under the Act of 1837) determined to present advantages in applying for patents superior to those offered inventors by others, has made arrangements, whereby on applications prepared and conducted by him, [illegible] DOLLARS (instead of *twenty* as paid by others,) will be remitted by him in case of failure to obtain a patent and the withdrawal through him within thirty days after the rejection. Caveats, Specifications, Assignments and all necessary papers and drawings for procuring patents in this and foreign countries prepared, and advice rendered on legal and scientific matters respecting inventions, and infringement of patents.

Inventors here can obtain their specifications on the most reasonable terms, (generally about 30 per cent. less than those of others in the profession,) but avail themselves of the experience of twenty years practice, his visits to the Patent Office, an extensive library of legal and mechanical works and correct accounts of patents granted in this and other countries, besides being saved a journey to Washington, the usual great delay there, as well as all personal trouble in obtaining their patents. Copies of claims of any patent furnished by remitting *one dollar.* Assignments recorded at Washington. Patents in Great Britain, France, and other foreign countries, secured through agents of the highest respectability.

R. H. EDDY, *Solicitor of Patents.*

"During the time I occupied the office of Commissioner of Patents R H Eddy Esq of Boston did business at the Patent Office as Solicitor for procuring Patents. There were few, if any, persons acting in that capacity, who had so much business before the Patent Office, and there were none who conducted it with more skill, fidelity, and success. I regard Mr. Eddy as one of the best informed and most skillful Patent Solicitors in the United States and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office,

EDMUND BURKE,

Late Commissioner of Patents."

[From the present Commissioner.]

"August 17, 1855.—During the time I have held the office of Commissioner of Patents R H Eddy Esq of Boston has been extensively engaged in the transaction of business with the Office as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse.

Commissioner of Patents."

HAS ARRIVED!

The Voluntary Testimony of Living Witnesses, is that

Hayes' Allied Ointment,
and Humor Syrup,

IS the BEST MEDICINE ever offered to the public for the Cure of all Humors.

It has stood the test of more than seven years, and in offering it to the public we are not ignorant of its reputation. We know it to be the greatest ALLEVIATOR of PAIN and SUFFERING to those afflicted with any kind of Humor and really one of the greatest blessings to mankind ever before the public, as we can show by the evidence of living witnesses.

Read the following—it speaks for itself.

LAWRENCE, June 12, 1854.

We, the undersigned, citizens of Lawrence, having used the Vegetable Allied Ointment prepared by Dr. E. D. Hayes, of this city, and being personally acquainted with the Doctor, feel pleasure in adding our testimony to all the Doctor claims for [illegible] medicine. Unlike other remedies in the market, this preparation performs its office speedily and with certainty. The Ointment we have used with the most happy result, after vainly seeking relief by the free use of Sarsaparillas, Salves etc. etc.

Our experience fully justifies us in confidently recommending it as an article and the only one known to us as performing all it claims.

A B BUNKER A W STEARNS
SETH [illegible]PSON ASA T SANBORN

IT CURES

The Salt Rheum, Scrofula, Erysipelas, White Leprosy, Cancerous Humors, Ring Worm, Scald Head, Burns and Scalds, Chilblains, Piles, (a preparation expressly,) Barbers' Itch, Fever Sores and all old Mercurial Sores however long standing. It removes all those vexatious Pimples, Eruptions and Moth or Mildew from the face, leaving the skin perfectly soft and smooth, adding greatly to the beauty of complexion. Never in no case will it leave the least mark or scar. It will draw humors from the Stomach, Lungs, Throat and from the Head and Eyes by its outward application. It improves the sight wonderfully where the eyes are troubled with Humors by removing the difficulty, and restoring the sight.

The Great European Cough Remedy.

Important to the Consumptive and the Public generally. The celebrated

Universal Cough Mixture

IS a safe and effectual Remedy for Coughs of every description, whether of children or adults, of recent or long standing.

PREPARED ONLY BY

REV. WALTER CLARKE,

Sole Proprietor, Cornishville, Maine.

Within the last twelve months thousands of bottles of the Universal Cough Mixture have been sold in the State of Maine alone, and everywhere its extraordinary power in relieving and curing diseases of the Chest and Lungs, is gratefully acknowledged, and especially in cases of obstinate and long standing Coughs, it speedily allays the unpleasant sensation in the throat which excites coughing, it promotes free and easy expectoration, and by removing the exciting cause of the cough, it frequently enables the sufferers to enjoy natural and refreshing sleep, who for weeks had been deprived of that blessing.

☞ Sold in trial bottles, 25 cents each, large bottles, each containing the quantity of four small ones, 75 cents each.

Extract of a letter from Daniel Adams Esq, of Bowdoinham Maine

February [illegible], 1853.

To Rev Walter Clark: Dear Sir—The bottle of Cough Mixture which I bought of you at [illegible] had the desired effect on my wife. She had been afflicted with a cough for two years—that bottle entirely removed it.

From Rev Jesse Hoyt Lewiston Falls

Rev. CLARKE—Every bottle of the Universal Cough Mixture which you left with me is sold—and I have several applications for more. All that I have heard from, all have been perfectly satisfied with the medicine. One man who had a cough of long standing attended with tightness of the chest and shortness of breath so that he was laid aside from business, purchased one large bottle, and before he had taken one third of it, was perfectly cured, and has had no cough since. He says it is the best medicine in the world, and cannot be recommended too highly.

JESSE HAYES

From Mr Fletcher Clark agent for North Dixmont, Maine

Dear Sir—A number of the most extraordinary cures have been effected by your Universal Cough Mixture in this place. Several who had coughs for years standing and others who have been doctoring for six months without receiving any benefit have been speedily cured by the Universal Cough Mixture.

From Mrs Hubbard, Thorndike, Me

February 1, 1854

To Rev. Walter Clark: Dear Sir—This certifies that I have used one bottle of your Universal Cough Mixture for a distressing cough and soreness in the lungs. I had previously taken several kinds of medicine, and had been under the care of several physicians, without obtaining the least relief, happily your Universal Cough Mixture was recommended to me. I procured a bottle which I began to take according to directions on the label, by which in a few days I was entirely cured.

KENNEDY'S
MEDICAL DISCOVERY
The Greatest of the Age!

MR KENNEDY, of Roxbury, has discovered in one of our common pasture weeds a remedy that cures *EVERY KIND OF HUMOR,* from the worst Scrofula down to a common pimple. He has tried it in over eleven hundred cases, and never failed except in two. He has now in his possession over two hundred certificates of its value, all within twenty miles of Boston.

Two bottles are warranted to cure a nursing sore mouth.

One to three bottles will cure the worst kind of pimples on the face.

Two to three bottles will cure the system of biles.

Two bottles are warranted to cure the worst canker in the mouth and stomach.

Three to five bottles are warranted to cure the worst cases of erysipelas.

One to two bottles are warranted to cure all humors in the eyes.

Two bottles are warranted to cure running in the ears and blotches in the hair.

Four to six bottles are warranted to cure corrupt and running ulcers.

One bottle will cure scaly eruptions of the skin.

Two to three bottles are warranted to cure the worst case of ring worm.

Two to three bottles are warranted to cure the most desperate cases of rheumatism.

Three to six bottles are warranted to cure salt-rheum.

Five to eight bottles will cure the very worst case of Scrofula.

A benefit is always experienced from the first bottle, and a perfect cure warranted when the above quantity is taken.

Nothing looks so improbable to those who have in vain tried all the wonderful medicines of the day as, that a common weed, growing upon the pastures and along old stone walls, should cure every humor in the system; yet it is now a fixed fact. If you have a humor it has to start. There are no ifs nor ands about it, suiting some cases but not yours. He has peddled over a thousand bottles of it in the vicinity of Boston, and knows the effects of it in every case. It has already done some of the greatest cures ever done in Massachusetts. He gave it to children a year old, to old people of sixty, and has seen puny looking children, whose flesh was soft and flabby, restored to a perfect state of health by one bottle.

To those who are subject to sick headache, one bottle will always cure it. It gives great relief in catarrh and dizziness. Some who have taken it have been costive for years, and have been regulated by it. Where the body is sound it works quite easy, but where there is any derangement of the functions of nature, it will cause very singular feelings, but you must not be alarmed—they always disappear in from four days to a week. There is never a bad result from it—on the contrary when that feeling is gone you will feel yourself like a new person. I heard some of the most extravagant encomiums of it that ever man listened to.

No change of diet ever necessary. Eat the best you can get and enough of it.

ROXBURY, Sept. 19 1853.

This is to certify that H H HAY, Druggist, Portland, is the duly AUTHORISED GENERAL AGENT for my MEDICAL DISCOVERY for the STATE OF MAINE, and that he is supplied with the GENUINE, direct from my Laboratory.

G. W STONE'S

LIQUID CATHARTIC

—AND—

FAMILY PHYSIC,

The most important discovery ever made in Medical Science, being a compound of Barks and Roots, which forms the most powerful, safe, and agreeable physic ever offered to the public.

THE necessity of such a medicine has long been felt both by the heads of families and physicians. Its advantages over cathartics given in the form of Pills or Powders must be obvious to every intelligent person. It operates more immediately and effectually upon the system, and at the same time is infinitely less difficult to administer, being quite agreeable to the taste. It not only produces all the effects where physic is required, but completely removes habitual Costiveness, leaving the bowels perfectly free. It expels all humors from the blood, is a certain cure for the Piles. Regulates the action of the Liver, frees the stomach from Bile, invigorates the whole Nervous System, and removes the cause of all local pains, such as *Rheumatism, Neuralgia, Tic Doloureux, Gout, Pain in the Head, Side, Stomach, &c.*

It may also be relied upon in all diseases of the Bowels—DYSENTERY DIARRHŒA AND CHOLERA MORBUS yield at once to its magical influence. Again we repeat, TRY IT—it needs no other recommendation. No family will be without it after they have properly tested its merits. Reader, if you have tried other remedies without success despair not—relief is now at hand. Are you suffering from Scrofula, six bottles of my Liquid Cathartic will cure you. Would you be relieved from habitual Costiveness, three bottles will effect all that you desire. If you are afflicted with Rheumatic, Neuralgic, or other local pains two bottles will free you from them.—All humors will be eradicated from the blood by the use of from one to six bottles. In short, if you require a physic for any purpose, this is the most reliable, safe, and agreeable to the taste that has ever been placed within the reach of the public.

TESTIMONY FROM MAINE

Capt Daniel Abbott, Brooklin, Maine, July 16, 1853, says "I was taken sick one year ago last April, upon my passage from Havana to Charleston S C. At the latter place I took medicine and procured a physician, but for ten days could obtain no relief, no sleep or appetite. At last taking up a newspaper having your advertisement of "Hoofland's German Bitters" in it, I sent for some immediately. This was about 10 o'clock; at 11 o'clock I took the first dose, and another at 6 o'clock. The effect was so rapid on me that I had a good appetite for supper, and rested well that night, and the next day found me a well man.—I have not been without your medicine since, having been sailing between Baltimore, Charleston and the West India Islands ever since. I have now given up going to sea and reside in this place where you should have an agency, as you could sell large quantities of it."

Jos B Hall & Co, Presque Isle, Aroostook Co, Maine, April 24 1854, say: "We herewith send you a certificate of a cure performed by the use of *only one bottle* of the German Bitters. We think Mr Clark to be a man of veracity, and have no doubt of the truth of his story.

Messrs Jos B Hall & Co—Gentlemen—In answer to your inquiries I will state that my daughter, aged about 16 years, has been complaining of a pain in her side for six or seven years, and about the first of January last was taken down and confined to her bed. The pain in her side was very severe, besides being troubled with pains between her shoulders and in her breast. From reading a number of cures performed by "Hoofland's German Bitters, I was induced to try them in her case, and sent to your store and purchased *one bottle.* She had taken it but a few days when she began to improve, and now, after taking *only one* bottle, she is enjoying better health than she has for years.—She feels no pain in her side or in any part of her body, and attributes her cure *entirely* to the German Bitters.

WILLIAM CLARK.

Salmon Brook, Aroostook Co, Me

You should bear in mind that these Bitters are *entirely vegetable,* thereby possessing advantages over most of the preparations recommended for similar diseases.
